

Our lives begin to end
the day we become
silent about things
that matter.

-Martin Luther King, Jr.

On December 24th, 2010, an Indian court sentenced Dr. Binayak Sen, a man who has spent most of his life providing medical care to indigenous and marginalised communities, to life in prison. His crime was refusing to stay silent about atrocities committed by the state against its own people. What happened to justice in the world's largest democracy?
